English is a language which is important, useful and helpful for every citizen in today's world. By learning English language, we can develop four important skills like Listening, Speaking, Reading and writing. Knowledge of English is important as we can get to know how to frame sentences, how to use words in dialogues while speaking to others. As every word has a particular context where it fits right, using words in such a manner in English is a art that can only be mastered by practice. And with such command, we can easily communicate with others on any level. By considering these points Department of English collaboration with Department of Commerce organized a workshop on communication in English.
